We are proud to partner with the following national leader in education:

### KEYNOTE PRESENTATION

*Dr. Robyn R. Jackson is passionate about the profession of teaching. She helps teachers and administrators understand the principles of mastery teaching and shows them how to apply these principles in order to help every student succeed. As a former high school English teacher and middle school administrator, she refined these principles on her own journey to become a master teacher. And, now as a best-selling author, internationally recognized keynote speaker, and professional developer, she provides step-by-step advice on how to use these same principles to become or help others become master teachers. Dr. Jackson believes that every child deserves a master teacher and that any teacher can become a master teacher with the right kind of support and practice. Through Mindsteps™ Inc., her professional development firm located in Washington, DC, she doesn't just want to change how we teach; Dr. Jackson wants to change the way that we think about teaching.*

Dr. Jackson is the author of nine books including *Never Work Harder Than Your Students* and the Mastering the Principles of Great Teaching series. Through her speaking and training she inspires audiences world-wide to become master teachers, implement more rigorous instruction, support struggling students, and provide effective instructional leadership.
